

About us

We work hard to give kids, families, and communities the chance to learn, grow and thrive. We're a diverse organisation providing before and after school programmes, early childhood education, youth development, community hubs, outdoor camps, and sport and recreation programmes and facilities.

Our work is focussed on making a difference and creating lasting personal and social change in communities from Whanganui and Palmerston North to Masterton, the Hutt Valley and Wellington City

The opportunity (3 positions, including a chairperson)

As a team we're committed to a strong and viable organisation that's well positioned to strengthen our communities. This commitment needs strong leadership, and we now have vacancies for three new members on our Board who can provide that leadership and support our vision and purpose.

Being a member of the Y Central Board means being part of an internationally recognised brand, contributing to a complex and diverse organisation, and ultimately, making a difference in your community.

For all positions we'd love to hear from people with leadership and management experience. We're especially keen to have people with one or more of the following skills join us:

- Finance/Accounting
- Asset Management (including property)
- Programme or Business Development – especially in our fields of recreation, education and community
- IT Management

Our ideal person for the position of Chairperson is somebody with strong governance and strategic leadership experience, who might have been a Board Chair previously.

The Commitment

We have eight meetings a year and two or three of these are face to face, in Wellington.

Appointments are made for a two year period.

To apply by email send to Nicola.campbell@ycentral.nz including a full CV and covering letter.
