

New Logo, Same Cause

For years we've been referring to ourselves as 'the Y'. Not just because it's shorter to say but because it's more inclusive. And inclusivity, equality and diversity is what we're all about.

As the oldest and largest youth organisation in the world, times have changed since the Young Men's Christian Association was founded. We stand behind all people regardless of gender, race, religion or sexuality. Everyone should feel welcome and supported at the Y.

When it comes to our cause, we're committed to continue helping build strong kids, strong families and strong communities within throughout the lower North Island

We build strong kids, strong families and strong communities through investing in the next generation.
