SOCIAL RESPONSIBILITY**

12<sup>th</sup> November 2021

Tēnā koe,

### **Y Central COVID-19 Vaccination Policy and Risk assessments**

The purpose of this letter is to advise you of Y Centrals position on COVID-19 Vaccinations.

Whilst most of our roles sit under the COVID-19 Public Health Response Order for Mandatory Vaccinations for Education, we have also completed Risk Assessments for every role in the organisation and it is overwhelming clear that a COVID-19 Vaccination will reduce the exposure and consequence of potential exposure to COVID-19.

Considering this, the Y Central Board of Directors have ratified the decision to make COVID-19 vaccinations mandatory for all roles within Y Central.

From 15<sup>th</sup> November, all staff working across YMCA Central facilities and services will be vaccinated (atleast first dose).

We are currently working on our position for customers/clients and visitors and will know more once details of the the Covid Protection Framework and vaccine certificates are released by the government.

As you will be aware, this is not an easy time. We are working hard to ensure we achieve the best possible results for our staff, children, families and communities. If you would like to korero, please do not hesitate to contact me on [Brendan.owens@ycentral.nz](mailto:Brendan.owens@ycentral.nz)

Nga mihi

Brendan Owens
